Position:	Salary:	Location:
Staff Information Systems Analyst (Specialist)	\$4,898 – \$6,253	Office of Statewide Health Planning & Development Healthcare Information Division Information Technology Services Section 818 K Street, Room 300 Sacramento, CA 95814

## WE ARE LOOKING FOR A MOTIVATED PERSON WHO THRIVES ON CHALLENGE AND ENJOYS WORKING IN A TEAM ENVIRONMENT!

### General Statement:

The network engineer works individually and on teams to support OSHPDs network infrastructure. The network engineer is responsible for installing, maintaining and supporting computer communication networks within OSHPD. The network engineer's goal is to ensure the smooth operation of communication networks in order to provide maximum performance and availability for OSHPD users.

### Duties:

- Installing, supporting and maintaining new server hardware and software infrastructure
- Allocating network resources
- Setting up user accounts, permissions and passwords
- Monitoring network usage
- Ensuring the most cost-effective and efficient use of servers
- Suggesting and providing IT solutions to business and management problems
- Ensuring that all IT equipment complies with industry standards
- Analyzing and resolving faults, whether it is a major system crash or forgotten password
- Providing training and technical support for users with varying levels of IT knowledge and competence
- Working closely with other divisions and collaborating with other IT staff
- Planning and implementing future IT developments and undertaking project work

### Desirable Qualifications:

- 2-3 years experience designing, implementing and maintaining TCP/IP networks using Cisco routers and switches is required.
- Extensive knowledge of VLAN, QOS, EIGRP, Firewalls, IDS, IPSEC and SSL, VPN, MPLS in a provider environment
- Experience implementing complex Windows 2003 Active Directory and Exchange 2003 systems is required. This should be experience with integrating 3<sup>rd</sup> party AD dependent applications
- 2-3 years experience with CISCO AVVID architecture including Call Manager, Unity and IPCC Express
- 2-3 years experience with enterprise backup environments and software such as Veritas NetBackup
- UNIX/Linux experience would also be a plus
- Some after hours and weekend work may be required including participation in the department on call rotation. Some travel may be required.

### Who May Apply:

Applications will be accepted from individuals currently in the class or who have list, transfer or reinstatement eligibility to the class. Individuals with list appointment should attach a copy of their notice of test results. Appointment is subject to SROA policies. The most qualified individuals will be selected for an interview.
